After both squares are made, weave in all ends with a tapestry needle. Lay the square with the puffs on top of the flat square, and with the puffs facing toward you, pull up a loop in the top left hand corner and chain 2. HDC the two squares together by inserting your hook through both sides of each square. Try to work one HDC per row on the sides, and one HDC per stitch on the ends. Work three HDCs into each corner. When you reach the corner you started with, slip stitch into the starting chain 2 and chain 10. Then slip stitch into the corner again and tie off. You can wrap your tail around the bottom of the chain 10 a few times before weaving it into the hot pad if you'd like.
