STITCHES

Double Crochet (DC): Yarn over (YO), insert your hook, YO and pull up a loop, YO, pull through two loops, YO, pull through remaining two loops.

Front Post Double Crochet (FPDC): A front post DC means you insert your hook from front to back around the post of the next DC and work your DC.

Back Post Double Crochet (BPDC): A back post DC means you insert your hook from the back to the front and work a DC.

PATTERN

Chain 64.

Row 1: Work 1 DC in the 4th chain from the hook. DC into each of the remaining chains. (61 dc)

Row 2: Ch 2 and turn. *Work FPDC around each of the next 12 DC.

Tip: your first FPDC to work is around the second post in the row below, not the post that lines up under the turning chain.

Work BPDC around each of the next 12 DC. Repeat from * across the row. Work FPDC around the last 12 posts of the row, work 1 DC around the turning chain.

Row 3: Ch 2 and turn. *Work BPDC around each of the next 12 posts. FPDC around each of the next 12. Repeat from * across the row. Work 1 DC around the turning chain.

Rows 4 - 11: Repeat rows 2 and 3.

Rows 12 - 21: (Reverse the direction of the post stitches) For this next section of ten rows, begin by reversing the direction of the posts. If the block below is popping to the front, work BPDC, to have them pop to the back. If popping to the back, work FPDC to have them pop to the front. This will give the basketweave appearance.

After finishing the next 10 rows, change the direction of the posts again. You will have 6 blocks high and 5 blocks wide total.

BORDER

Work 1 DC into each stitch across the top and bottom, work 3 DC into each corner and work as evenly as possible around the stitches/turning chains on each side. (If you work too many it will ruffle, too few and it will gather.)
