PATTERN

How to determine hat size:

The best way to make sure your hat fits is to make your base chain the measurement from your chin to the crown of your head for a slouchy look, or about your nose to the crown for less slouchy. You are making this hat lengthwise, so the length of your base chain will be the height of your hat. Or refer to the chart above.
Tip: For all sizes, chain 13 for the fun fringe; back-loop slip stitch the last 5 stitches at the top of the hat.

The only number that will vary is the amount of stitches for the main part of the hat. Make this as a rectangle, then sew the two sides together and cinch the top.

Chain 51 for an adult size using 4 weight yarn. For all other sizes use the chart above.

Row 1: Starting in the 2nd chain from hook, work 1 SC. Work 1 SC into 45 chains across. Slip Stitch (SL ST) into 5 remaining chains. Chain (CH) 13 (for fringe) and turn.

Row 2: Begin in the second chain from the hook, work 1 Half Double Crochet Slip Stitch (HDSS) into each of the next 12 sts. SL ST into the back loops of each of the next 5 sts. SC into each SC. CH 1 and turn.

Row 3: SC into each of the next 45 sts. SL ST into back loops of each of the next 5 sts. CH 1 and turn.

Row 4: SL ST into back loops of each of the next 5 sts, SC into each SC. CH 1 and turn.

Row 5: Work 1 SC into each SC. Work 1 SL ST into each of the next 5 back loops of SL ST. Chain 13 and turn.

Repeat Rows 2 through 5 until you have the width you need for size. (Make the hat 3 inches less than the circumference of the head. For example, a 22-inch head, make the hat 19 inches wide.)

Make one last Row 4 instruction to tie off at the bottom of the hat.

Tie off and leave a long tail (about 15 to 20 inches). Fold the hat lengthwise with the fringe on one end. Sew the sides together.

Use the rest of the tail to weave in and out around top of the hat and at the base of the fringe, pulling it tight to gather in.
