How to determine hat size:

The best way to make sure your hat fits is to make your base chain the measurement from your chin to the crown of your head. You are making this hat lengthwise, so the length of your base chain will be your hat height.

Hat Sizing by Age	If your head circumference measures this...	...then make the hat height (base chain) this...	...and make the width of your hat this...
Preemie	12-13 in	6 in	9-10 in
Newborn-3 Months	13-14 in	7 in	10-11 in
3-6 Months	14-15 in	8 in	11-12 in
6-12 Months	15-16 in	9.5 in	12-13 in
12-24 Months	16-18 in	10 in	13-15 in

Chain 51 for 22 inch head circumference

ROW 1: Starting in the 2nd chain from hook, work 1 SC. Work 1 SC into 45 chains across. Slip Stitch (SL ST) into 5 remaining chains. Chain (CH) 13 (for fringe) and turn.

ROW 2: Begin in the second chain from the hook, work 1 Half Double Crochet Slip Stitch (HDSS) into each of the next 12 sts. SL ST into back loops of each of the next 5 sts. SC into each SC. CH 1 and turn.

ROW 3: SC into each of the next 45 sts. SL ST into back loops of each of the next 5 sts. CH 1 and turn.

ROW 4: SL ST into back loops of each of the next 5 sts, SC into each SC. CH 1 and turn.

ROW 5: Work 1 SC into each SC. Work 1 SL ST into each of the next 5 back loops of SL ST. Chain 13 and turn.

Repeat ROWS 2 through 5 until you have the width you need for size. (Make the hat 3 inches less than the circumference of the head. For example, a 22-inch head, make the hat 19 inches wide.)

Make one last Row 4 instruction to tie off at the bottom of the hat.

Tie off and leave a really long tail (probably about 15 to 20 inches). Fold hat length wise with fringe on one end. Sew the sides together.

Use the rest of the tail to weave in and out around top of the hat and at the base of the fringe, pulling it tight to gather in. (Optional: finish the inside gathered spot with a button for style.)

If the part about sewing up the sides and gathering the top doesn't make sense, see video below for help.
