In a contrasting color, chain 48.

Begin in the 4th chain from the hook with DC, DC into each st across the row.  
Cut and tie the ends into a knot.

Match the two pot holder sides together, starting tails and ending tails matched.

Attach the two sides together by weaving the vertical ribbons first, down and back up around the center squares.

Then weave the horizontal strips down and back up around the center squares.

Tuck the tails to the inside of the pot holder.

## **PATTERN**

### **Border:**

For the Sides: Start in the upper left hand corner, where last stitch was made with the contrasting color.

Insert your hook underneath both DC posts. Pull up a loop and chain 1 to secure. 2 SC around same post.

Work 2 SC around each post. When you reach the ribbon, catch the post of the ribbon as well as the posts on the pot holders to work the first 2 SC. CH 5, slip stitch to top of SC (picot), work 2 more SC around the ribbon and post stitches on pot holder.

Tip: tuck the ends into the middle of the pot holder as you are SC over the ribbon ends.

For the corners, work 2 SC, picot, 2 SC. The picot will land on the tip of the corner. Work the next 2 SC into the next space.

Work in between the DC on the bottom and top of the pot holder. Work the ribbons in the same manner as the sides.

Finish the round by working SC into the first starting space, CH 8, Slip stitch to starting space, work as many SC as you can around the 8 chains to form a tight ring, slip stitch to the base stitch, tie off and weave in the end.
