PATTERN

Tips:

-Pull through with the new color on the last step of the stitch.

-Lay whichever color you aren't using along the top of your work and crochet over it as you go.

-To avoid your yarn getting twisted as you carry it along your work, it helps to always keep one color to the front and one color to the back each time you switch colors.

Chain 126 with Feathered Grey (the lighter grey shade) (Pattern repeat is any odd number x 25 plus 1.)

Row 1: In the second chain from the hook, SC. In the next chain, DC. Alternate SC and DC for the next 23 chains. Insert your hook into the 25th chain space, yarn over and pull up a loop but then stop, and change colors. Pull through and finish the SC with Grey Heather. DC into the next stitch with the new color, and crochet OVER the Feathered Grey. You are bringing it along with you, underneath and through your work. You will be changing colors every 25 stitches. Chain 1 and turn.

You should have ended the row with a SC and with Feathered Grey. Bring Grey Heather around the end of your work and continue crocheting over this strand.

Row 2: Work your first SC into the SC you just made in the previous row. Then, work a DC into the next DC. Continue this alternating pattern and before you finish the 25th stitch, pull up the Feathered Grey to change colors. Now work the next 25 stitches with the new color, switching back to the Grey Heather in the 25th stitch. Continue switching colors every 25 stitches. Chain one and turn.

Repeat row 2 instructions until you have 20 rows.

Row 21: Cut the Grey Heather and begin the row with White. Work the first 25 sts and change color to White. Work the crumpled griddle stitch alternating between White and Feathered Gray.

Each section of alternating colors are 20 rows high.

Repeat the pattern until you have 5 blocks in height.

Tie off and weave in the ends.
